Hi Everett,

Thank you for this information and I will wait to see the letter and/or resolution that your Tribal Council will send. Regarding the visit, do you know if anyone from your tribal government is planning to go to Iliamna for this meeting? Rick Parkin had received a message from Lisa Reimers that Naknek wanted a meeting, he then asked if Naknek was intending to go to Iliamna? I will let Rick fill you in on any details about the trip.

Thanks!

Subject: Naknek Native Village Council/EPA/Water assessment

Hi Tammy,

Just giving you a heads up on some actions taken with the tribal council here in Naknek.

There was a letter written on July 12 from our President Patrick Patterson stating that our council was wanting to extend the comment period. That was not a council decision and that letter was just retracted by our council today and the resolution and letter is as follows.

Dear EPA,

As supported by the attached resolution, the Naknek Native Village Council hereby retracts the letter of July 12, Docket ID: EPA-HQ-ORD-2012-0276-2351. EPA should therefore strike this letter from the Watershed Assessment record.

RETRACTION OF JULY 12, 2012 LETTER TO EPA

WHEREAS, a letter dated July 12, 2012 (Bristol Bay Watershed Assessment Docket ID # EPA-HQ-ORD-2012-0276-2351) was erroneously sent and misrepresented the position of the Council; and

WHEREAS, the Council only became aware of this erroneously sent letter after the close of the public comment period on the Draft Bristol Bay Watershed Assessment.

THEREFORE BE IT RESOLVED, the Naknek Native Village Council retracts its letter to the EPA dated July 12, 2012 (Docket ID # EPA-HQ-ORD-2012-0276-2351).

This should be coming from our administer and President. I don't know how timely it will get to you but I just wanted to let you

know about this.

Our Council has expressed interest when your Scientist comes out to the area, we would like to meet with him.

Thanks again. Hope everything is going well
